

MUTATIONS

TEENAGE MUTANT NINJA

TURTLES®

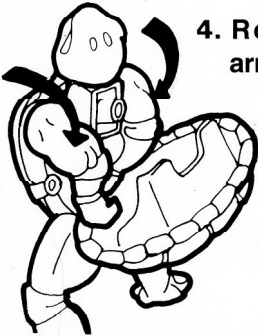

How to mutate Turtles:

1. I'm a mutant Turtle.
Help me become
my original pet
self!

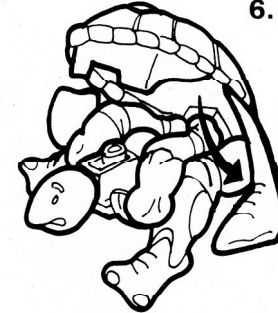

2. Crack the shell open
at the neck. Rotate
the side panels
around and snap
into the belt
buckle.
Note: For
easier opening
of shell, gently
squeeze sides of
back shell.

3. To switch from
mutant head to
pet head: pull
back, rotate,
and push
forward the
ninja neck to
lock head into
position.

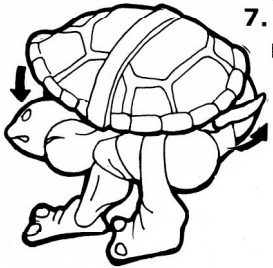

4. Rotate the mutant
arms back and inward
into shell. (Note:
Mutant arms
should end up
positioned in
middle of interior
body as shown.)

5. Swing the mutant
legs forward to
become the front
pet legs. (Note: Keep
legs positioned
close to sides
of body.) Hinge
feet down flat
on ground.

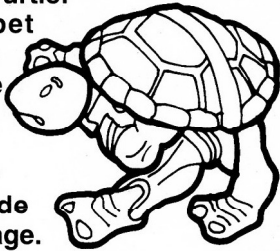

6. Swing out the hind
pet Turtle legs
from inside the
back shell. (Note:
Hind legs should
be positioned
behind front pet
legs as shown.)

7. Close shell and
rotate the Turtle
tail out.

8. Now I'm a pet Turtle!
Feed me my pet
Turtle food. To
help me become
a mutant just
reverse the
above steps or
reference inside
panel on package.

Please Note:

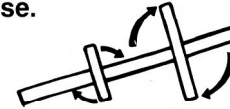

- Never force limbs into position. If parts don't fit comfortably or the shell does not close easily, you may have missed a step. Always keep the limbs trucked in, positioned close to body.
- If Turtle shell pops off, simply snap it back on.

- The enclosed mutation chart explains the evolution of these real mutatin' Turtles.
- Don't forget being a mutant master takes practice. The more you mutate, the better you become.

How to mutate Turtle weapons:

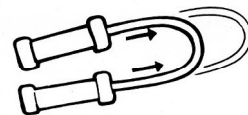

Don's:

Place Don's pogo bo into his mutant hands. To mutate pogo bo into pogo stick, rotate hinged sections of pogo bo side ways (as shown) and watch it mutate into his favorite pogo stick. Place Don's hand's on longer section of pogo stick & Don's feet on shorter section for correct pogoing pose.

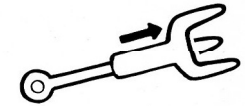

Mike's:

Place Mike's newly formed ninja nunchakus into his mutant hands. Presto, change-o, bonk-o! A pull on Mike's ninja nunchaku rope mutates his nunchaku into his favorite jump rope.

Raph's:

Place Raph's shape-changin' sais into his mutant hands. Pull up on the sai handle and watch the sai mutate into a pizza fork! Kowabunga!

Leo's:

Place Leo's mind bending katanas into his mutant hands. Push in the blade and watch as the Katana blade mutates into Leo's dagger.
