The Mutation Cycle of
 Night Ninja Rocksteady

Subject: Rocksteady
 Mutation Speed: .000841 Seconds

REAL TIME MUTATION CYCLE

NIGHT NINJA NOTATION:

Night Ninja Rocksteady
 Rocksteady uses his quick Mutation process whenever the
 Turtles are around. He's real fast, kinda silent and all
 henchman in his chest armor, leg pads and hoodlum hood.

Special Note: Too many Turtle snacks slows you down.

Mutation Process in Super Sewer Slow-mo!

As Rocksteady begins his high speed Mutation Process, he treats himself to a Turtle snack! Poppin' on his shoulder pads, Rocksteady tosses his snack into the air. With sonic speed, Rocksteady slips on his foot spikes and armored hood. Finally, he's ready for battle - but first, a snack!
