AUTO MUTATIONS™
TEENAGE MUTANT NINJA TURTLES®

BECOME AN AUTO MUTATIONS MASTER!
Here's how to Mutate Night Ninja Bebop™ back into his hideous hog self:
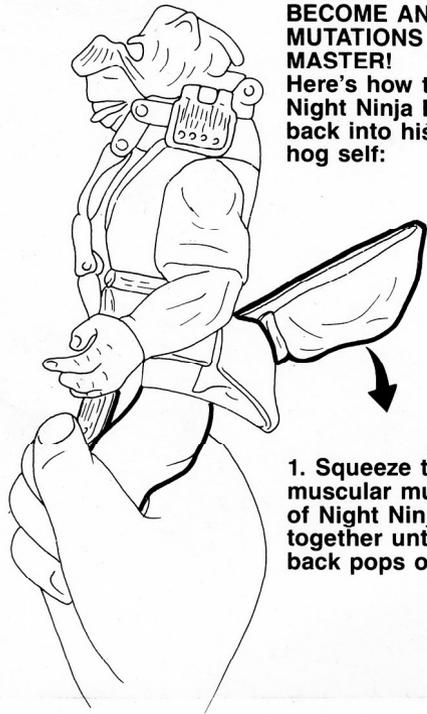

**1. Squeeze the muscular mutant legs of Night Ninja Bebop together until his back pops open.**

2. Pull his chest and shoulder armor over his head, fold the shoulder pads up and gently tuck it back into his back. NOTE: Do not force the armor into his back. You may need to fold parts of his armor together to fit into his back.

3. Release his legs to close his back and tuck his protective thigh pads back up into his robe.

4. Flip his automatic Sharp Shin Splinters back under his feet and he is once more, a humongously hideous Warthog.

To instantly mutate Bebop from his ordinary hog self into a secret Night Ninja: Just squeeze his muscular mutant legs together and watch him mutate instantly into an armored Night Ninja. For additional Turtle trashin' protection, swing down his thigh pads from under his robe, flip out his Sharp Shin Splinters and he's ready to roam as the most Humongous Hog under a Half Moon!
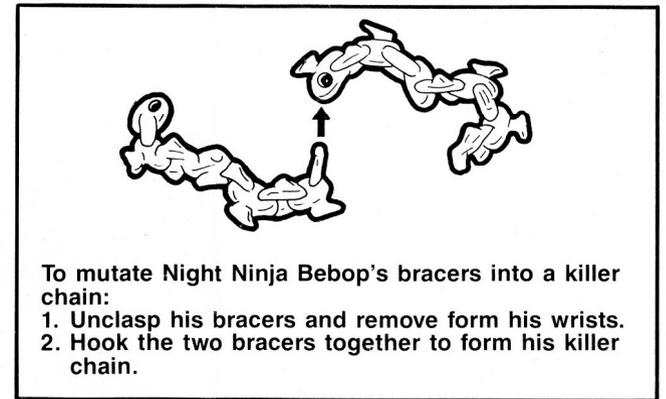

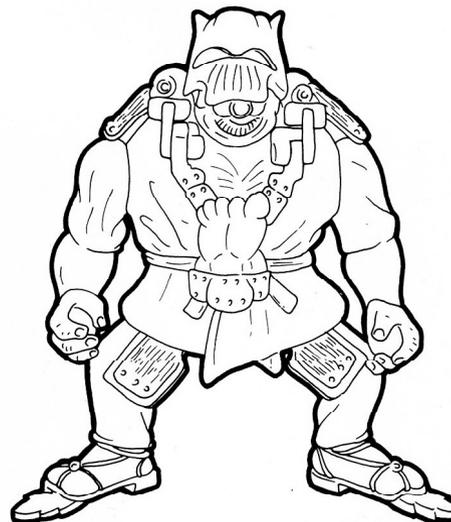

To mutate Night Ninja Bebop's bracers into a killer chain:
1. Unclasp his bracers and remove form his wrists.
2. Hook the two bracers together to form his killer chain.

NOTE: If your Auto Mutations Night Ninja isn't quite functioning properly as the fastest mutating Warthog ever, check the following:
1. Be sure to press his legs together firmly, but be careful not to press his legs too hard. If his back won't open, gently sperate his legs then try again.
2. If armor doesn't pop out all the way, shake figure gently and armor should pop out.
3. Always use care in mutating weapons. Treat them gently, with the respect a Ninja's weapon deserves.
